

Product Name :
Initial Surface Absorption Test (ISAT) Apparatus

Product Code :
ENGLABINGCAG3600037

Description :

Initial Surface Absorption Test (ISAT) Apparatus

Technical Specification :

The unit consists of a capillary tube mounted on a scale, a water reservoir & connecting tubes.

This apparatus is used to assess the surface absorption characteristics of concrete.

Material: Stainless steel, Plastic

Accuracy: +/- 1%

Size: 200 mm

Easy to use, mounted on a stand.

The rate of flow of water per unit area into a concrete surface when subjected to a constant head of 200mm is measured.
