

**Product Name :**  
Initial Surface Absorption Test (ISAT) Apparatus

**Product Code :**  
ENGLABINGCAG3600037

**Description :**

Initial Surface Absorption Test (ISAT) Apparatus

**Technical Specification :**

The unit consists of a capillary tube mounted on a scale, a water reservoir & connecting tubes.

This apparatus is used to assess the surface absorption characteristics of concrete.

Material: Stainless steel, Plastic

Accuracy: +/- 1%

Size: 200 mm

Easy to use, mounted on a stand.

The rate of flow of water per unit area into a concrete surface when subjected to a constant head of 200mm is measured.
