

Product Name :
Metallurgical Samples

Product Code :
ENGLABINGCAG2800011

Description :

Metallurgical Samples

Technical Specification :

FEATURES:

These sets are supplied in a wooden storing box with silica gel.

Type of Etchant with description of Microstructure along with their colored photographs are provided in a booklet.

LIST OF METALLIC MICROSTRUCTURE

- Dead Mild Steel
- Mottled cast Iron
- Low Carbon steel
- Ductile cast Iron
- Medium Carbon steel (Annealing)
- Cartridge Brass
- Medium Carbon steel (Normalizing)
- Hardened steel
- Anodized Aluminum
- Tempered steel
- Fusion Welded Mild Steel
- Carburized steel
- Friction Welded Steel
- Muntz Metal

Decarburized High Carbon steel
Tin Bronze
Inclusion in steel
Electroplated Component
Tool steel
Powder Metallurgy Component
Gray cast Iron
Deformed Mild Steel
White cast Iron
