Product Name:

Cut Model of Rear Axle with Locking Differential

Product Code:
ENGLABINGCAG3500016

Description:

Cut Model of Rear Axle with Locking Differential

Technical Specification:

FEATURES:

Operated: Manually (Through a Crank Handle)

Equipment Layout: On Base

Fine finish

Simple operations Functional accuracy

SPECIFICATION:

The main components are:

Axle shafts

Bevel gear (pinion – crown)

Differential (satellite and planetary) with locking differential

Reducer and planetary on the hub

Brakes with jaws/drum

Double air brake element

Engineering Lab Equipment India
