

Product Name :
Sprit Level

Product Code :
ENGLABINGCAG2600034

Description :

Sprit Level

Technical Specification :

FEATURES:

The Aluminum frame is strong and precision extruded which increases accuracy and strength of the Spirit levels
Precision milled base for high accuracy
Solid spirit bulb which doesn't break easily
Special and lasts for a long time
Rubber moulding is provided on the sides of the spirit levels to prevent damage to the body of the spirit levels
Available in two ranges i.e. mm/meter accuracy and 0.50mm/meter accuracy to cater to regular and high precision requirements.

SPECIFICATION:

Determine exactly the flatness of the surface to be measured.
The ruler is made of high quality steel, not deformed in all weather conditions. Products used in the construction industry, mechanics.
With 3 bubbles.
The compact design, handy.
