

Product Name :
Engineering Square

Product Code :
ENGLABINGCAG2600036

Description :

Engineering Square

Technical Specification :

FEATURES:

- Checking edges and ends of boards to see if they are square with adjoining surfaces
- Checking the width or thickness of narrow boards
- Checking flatness
- Laying out lines perpendicular to an edge or side of a board
- Measuring short distances

SPECIFICATION:

The try square has a blade (straight edge) and a stock (beam), which are fixed together at exactly 90.
The stock is much thicker than the blade.
The edge of the blade and the stock are perfectly sharp and straight.
