

Product Name :
Residential and Building Intelligent Control Training System

Product Code :
ENGLABINGCAG4700005

Description :

Residential and Building Intelligent Control Training System

Technical Specification :

Input power : single-phase, threee-wire AC 220V±10% 50Hz/60Hz

Power supply control : Automatic

air switch on/off power supply, with overcurrent protection, leakage protection devices

Output power : DC24V/3A, with limiting current type short-circuit soft protection and self-recovery function

Multifunctional Smart Panel 4-way switch

output module 10A 2-way

smart curtain controller

Single-port bus switch

Logic Controller

Twelve in one sensor

Power Modules

Dimming Module

Electric curtains

Software

User Manual

Residential & Building Intelligent Control Training System Vocational Training Equipment

Engineering Lab Equipment India
