

Product Name :
SBR Process Unit

Product Code :
ENGLABINGCAG8100001

Description :

SBR Process Unit

Technical Specification :

Discontinuous activated sludge process
Sequencing Batch Reactor (SBR)
Stirring machine with timer and continuously adjustable speed
Compressor with timer for aeration
Floating device for extraction of the treated water
Metering device for external carbon source
Flow meter for aeration
Tanks for wastewater and treated water
Measurement of pH value, temperature and oxygen concentration
