Product Name :
Electro Hydraulic Testing Station

Product Code :
ENGLABINGCAG800011

Description :

Electro Hydraulic Testing Station

Technical Specification :

Allows learners to gain valuable product testing skills used in automated processes by studying topics like station operation and adjustment, module sequencing, and station sequencing
Allows learners to practice and study how products are tested on an automated line, how these skills are integrated within a larger automated process, and an example of how hydraulics are utilized on an automated line
Includes a hydraulic press module with horizontal hydraulic cylinder and electro-hydraulic valve; hydraulic power unit; pressure transducer system; part clamp module; an operator station with lockout
