Product Name :
Double Stage Compressor Study Unit

Product Code :
ENGLABINGCAG9100006

Description :

Double Stage Compressor Study Unit

Technical Specification :

The Double Stage Compressor Study Unit makes it possible to study the main characteristics of a twin-cylinder air compressor with two-stage compression.
The system includes two water refrigerators to cool the air generated by the compressor, complete with thermo-resistances for measuring the temperature of the air and water at the input and output.
The bench is trolley-mounted and has a front panel on which the control devices and all the instruments needed for the tests are located.

Required services of Double Stage Compressor Study Unit
Electrical power supply: 380 V three-phase + neutral, 50/60 Hz, 3 kW
Water supply: 600 l/h, 2 - 3bar

Engineering Lab Equipment India
