Product Name :
Variable Speed Two Stage Compressor Study Unit With Digital Torque Indicator

Product Code :
ENGLABINGCAG9100012

Description :

Variable Speed Two Stage Compressor Study Unit With Digital Torque Indicator

Technical Specification :

The Variable Speed Two Stage Compressor Study Unit With Digital Torque Indicator makes it possible to study the major characteristics of a twin-cylinder air compressor with two-stage compression. The system includes two water coolers to cool the air generated by the compressor, complete with thermo-resistances for measuring the temperature of the air and water at the input and output. The bench is trolley-mounted and has a front panel on which the control devices and all the instruments needed for the tests are located.

Required services of Variable Speed Two Stage Compressor Study Unit With Digital Torque Indicator
Electrical power supply: 220 V single-phase, 50/60 Hz, 3 kW
Water supply: 6001/h, 2 - 3bar

Engineering Lab Equipment India
