

Product Name :
Air Entertainment Meter

Product Code :
ENGLABINGCAG360005

Description :

Air Entertainment Meter

Technical Specification :

Bowl Capacity: 0.005 cubic meter

Bowl Capacity: 0.007 cubic meter

Bowl Capacity: 0.01 cubic meter

Bowl Capacity: 0.01 cubic meter

An air valve is designed on the conical cover and there is also a petcock for flowing off the water from there.

The cylinder of the device is designed to be air pressure tight.

The tight hold is captured within a bowl.

The bowl has been fixed with the conical cover assembly and blocked with a seal.

The fixed air content is applied on the conical cover, which has a pressure bulb.

The applied pressure is counted and recorded on the pressure gauge.

The entire unit of the device is established on a flat base.
