

Product Name :
Compression Testing Machine Hand Operated

Product Code :
ENGLABINGCAG3600015

Description :

Compression Testing Machine Hand Operated

Technical Specification :

In these load frames "C" channels are used, they are welded at the top as well as bottom and with stand high loads.
A hydraulic jack is fitted at centre of the base of the load frame, over which can be fitted lower platen and spacer block with the help of centering pin.
A lead screw passes through the top of the frame.
To the lower end of this lead screw is fixed the upper platen with spherical seat for self alignment.
The lower platen grooves to correctly place the specimen.
The platens are accurately machined, hardened and polished.
Ranges: 50 kN to 3000 kN

Concrete Testing Lab Equipment, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlab India get practical educational equipment for Concrete Testing Lab Equipment schools and teaching staff. Buy wholesale India Concrete Testing Lab Equipment Manufacturers. Engineeringlab India high quality Technical Education Equipment products at the best price from India. Concrete Testing Engineering Lab Equipment Manufacturers India, Experiment Engineering Lab Equipment suppliers India, and factory in India
